

HEALTH EZ

Cedar Creek Pharmacy Medication Adherence Program

Goal: To optimize the health and wellness of our clients through appropriate, effective, cost effective, and safe medication usage.

Non adherence of medications can be the result of failure to fill or refill prescriptions, discontinuing a medication before the course of therapy is complete, taking more of less of a medication than prescribed, or taking a dose at the wrong time. Our programs are designed to help minimize or prevent medication non-compliance.
